Note: Male & female may not equal total due to EEO methodology and rounding

Total number currently employed = 999,946

DATA USAGE Please Note!

Individuals using this data to estimate the number of jobs that exist for a specific DOT job title should incorporate local knowledge of the labor market . It is virtually impossible to estimate precisely how many jobs of a specific DOT title exist in a labor market without reconnaissance of all employers that hire such workers. Therefore it is more prudent to use a range for estimating rather than a specific number.

Some individual DOT job titles should be given less weight than others based on how estoteric the title is. This information along with personal knowledge of the labor market can be used to make judgements about the prominence of a particular title.

To view all DOT titles assigned to a particular census code see our Specific Occupation Selector (SOS) Manual 4th Edition.

DEFINITIONS (from the Revised 4th Edition of the Dictionary of Occupational Titles (D O T) a publication of the U.S. Department of Labor.

SVP: Specific Vocational Preparation Levels
1 & 2 Unskilled Work

Strength Requirements

SEDENTARY WORK: Exerting up to 10 pounds of force occasionally and/or a negligible amount of force frequently or constantly to lift, carry, push, pull, or otherwise move objects, including the human body. Sedentary work involves sitting most of the time, but may involve walking or standing for brief periods of time. jobs are sedentary if walking and standing are required only occasionally and all other sedentary criteria are met.

LIGHT WORK: Exerting up to 20 pounds of force occasionally, and/or up to 10 pounds of force frequently, and/or a neg-

MEDIUM WORK: Exerting up to 50 pounds of force occasionally, and/or up to 20 pounds of force frequently, and/or up to 10 pounds of force constantly to move objects.

HEAVY WORK: Exerting up to 100 pounds of force occasionally, and/or up to 50 pounds of force frequently, and or up to 20 pounds of force constantly

VERY HEAVY WORK: Exerting in excess of 100 pounds of force occasionally, and/or in excess of 50 pounds of force frequently and/or in excess of 20 pounds of force constantly to move objects

Part Two

Guide To Estimating Unskilled Labor Market Characteristics

The following pages provide data for estimating jobs that meet specific physical demands, working conditions and aptitudes from the Dictionary of Occupational Titles. All data pertains only to that portion of the labor market that is unskilled.

See the Dictionary of Occupational Titles (DOT) for additional worker trait definitions.

Key:

N P (Not Present): Condition does not exist.

OCCASIONAL: Up to 1/3 of the time.

FREQUENT: 1/3 to 2/3's of the time.

CONSTANT: 2/3's or more of the time.

APTITUDES (levels)

1-2 above average (top 1/3 of the population)

3 average (middle 1/3 of the population)

4-5 below average (lowest 1/3 of the population)

DATA NOTES & SOURCES:

All data are estimates from government sources including the U.S. Department of Labor and the U.S. Bureau of the Census. The 1991 revised Fourth Edition of The Dictionary of Occupational Titles, was used for education, experience and strength requirements.

Growth for individual occupations in this labor market are estimated based on the overall growth of the entire labor market.

x = less than 1% of the unskilled labor market

For additional information or more exact numbers, contact the Director of Research and Analysis at your State Job Service.

Estimates for strength requirements are based on the actual requirements of the DOT occupations assigned to each census code. For complete worker trait information on all DOT titles, arranged by census codes, see the Specific Occupation Selector (SOS) Manual, 4th Ed. which is designed to be used with O.E.Q. and available from U.S. Publishing.

* Certain totals may not agree due to rounding

* DOT means "Dictionary of Occupational Titles" a Publication of the U.S. Department of Labor and available in most Public Libraries.

* nec means "not elsewhere classified"

* Census Codes were derived from the "Standard Occupational Classification (SOS) manual, a Publication of the U.S. Department of Commerce. Occupations were classified into homogeneous groups according to work performed for the major portion of the worker's time. Technical skills were given precedence over worker's time when necessary.
